## Tugas Pertemuan 4

```
1 <?php
2 class Matakuliah extends CI_Controller
3 {
4     public function index()
5     {
6         $this->load->view('view-form-matakuliah');
7     }
8     public function cetak()
9     {
10        $this->form_validation->set_rules('kode', 'Kode Matakuliah',
11        'required|alpha', [
12            'required' => 'Kode Matakuliah Harus diisi',
13            'alpha' => 'Kode terlalu pendekss'
14        ]);
15        $this->form_validation->set_rules('nama', 'Nama Matakuliah',
16        'required|min_length[3]', [
17            'required' => 'Nama Matakuliah Harus diisi',
18            'min_lenght' => 'Nama terlalu pendek'
19        ]);
20
21        if ($this->form_validation->run() != true) {
22            $this->load->view('view-form-matakuliah');
23        } else {
24            $data = [
25                'kode' => $this->input->post('kode'),
26                'nama' => $this->input->post('nama'),
27                'sks' => $this->input->post('sks')
28            ];
29
30            $this->load->view('view-data-matakuliah', $data);
31        }
32    }
```

autoload.php

```
46 | Auto-load Libraries
47 | -----
48 | These are the classes located in system/libraries/ or your
49 | application/libraries/ directory, with the addition of the
50 | 'database' library, which is somewhat of a special case.
51 |
52 | Prototype:
53 |
54 |     $autoload['libraries'] = array('database', 'email', 'session');
55 |
56 | You can also supply an alternative library name to be assigned
57 | in the controller:
58 |
59 |     $autoload['libraries'] = array('user_agent' => 'ua');
60 | */
61 | //$autoload['libraries'] = array('form_validation', 'session', 'database');
62 | $autoload['libraries'] = array('form_validation', 'session', 'database');
63 |
64 | /*
65 | -----
66 | Auto-load Drivers
67 | -----
68 | These classes are located in system/libraries/ or in your
69 | application/libraries/ directory, but are also placed inside their
70 | own subdirectory and they extend the CI_Driver_Library class. They
71 | offer multiple interchangeable driver options.
72 |
73 | Prototype:
74 |
75 |     $autoload['drivers'] = array('cache');
76 |
77 | You can also supply an alternative property name to be assigned in
78 | the controller:
79 |
80 |     $autoload['drivers'] = array('cache' => 'cch');
```
